2011-2012 Child Care Transportation Request Form

Transportation will be to/from the closest existing bus stop in a currently established service area only. We do not route specifically for child-care providers. Only one (1) child-care location is permitted. Arrangement as listed is for every scheduled school day. The bus stop provided replaces the home transportation arrangements. If a parent is home regardless of reason, it is expected that the student will still be transported to/from the child-care location. Due to the number of students being transported, alternative schedules cannot be honored for your child's safety.

Student's Name _____

Home Address _____

Home Phone _____ Parent Work Phone _____

School Attending _____
