With the opportunity to experience on stage and/or backstage elements, students will learn music, dance, acting, and technical crew skills such as lighting and sound through a musical production, and have a chance to learn and grow confidence, teamwork and have a ton of fun!

Based on the original Broadway production, Disney's Beauty and the Beast Jr. is a fantastic adaptation of the story of transformation and tolerance. With many fun supporting roles allowing students to play objects inside the castle, this "tale as old as time" is filled with spectacular costume and set opportunities.
